

LaGrange Library Board Committee Reports December 2021

Long Range Planning Committee

Met in December and reviewed the most commonly raised comments from the 2019/2020 survey. The committee will work on a response to the community to highlight what the library has done over the past 2 years that addresses several of the comments. The goal is to release the response to the community within the next month or so. The committee has also started working on a draft for the next survey. The goal is to make the next survey available in the 2nd half of 1Q2021. The committee plans to discuss these via e-mail over the next several weeks and does not have concrete plans for the next meeting.
